

CYBER 2026

InfraGard San Diego's 2nd Annual Cyber Futurist Symposium

Join the San Diego Law Enforcement Coordination Center, the Federal Bureau of Investigation, and the InfraGard San Diego Chapter for the Cyber 2026 Symposium. This event will engage local San Diego experts in a discussion regarding cyber threats looking ten years down the digital road. Our distinguished panelists who have extensive experience in diverse cyber disciplines will provide invaluable insights for law enforcement, first responders, military service members, and our public and private sector partners. The expert panel of cyber 'futurists' will be moderated by Christian Whiton, President of the Hamilton Foundation and regular CNN and Fox News contributor.
