The FBI’s InfraGard Program

San Diego LEAPS, July 20, 2012
The Birth of InfraGard

The National InfraGard Program began as a pilot project in 1996, when the Cleveland FBI Office asked local computer security professionals to assist the FBI in determining how to better protect critical information systems in the public and private sectors. From this new partnership, the first InfraGard Chapter was formed to address both cyber and physical threats.
InfraGard San Diego Members Alliance

InfraGard Purpose

Mitigate Criminal- and Terrorist-based Threat, Risk and Loss

• Provide opportunity to exchange ideas, information and security practices between the private sector, law enforcement, other first responders, government and academia.

• Provide members with timely threat/risk advisories, alerts and warnings.

• Provide a conduit to act as a “force multiplier” for the FBI and DHS

• Host regular meetings on timely topics of concern and importance to our critical infrastructure sectors
InfraGard Program Guidance

• Homeland Security Presidential Directive 7
  – HSPD-7
  – Establishes Critical Infrastructure/Key Resource Protection Program (CIP)

• National Infrastructure Protection Plan (NIPP)
  – Guiding document for CIP

• Sector Specific Plans (SSP)
  – Guidance for individual sectors

• Intelligence Reform Act
  – Fusion Centers

• Fusion Center Baseline Capabilities - DOJ
A critical infrastructure characterized by the physical distribution system critical to supporting the national security and economic well-being of this nation, including aviation; the national airspace system; airlines and aircraft; and airports; roads and highways, commercial and personal vehicles, intelligent transportation systems; waterborne commerce; ports and waterways and the vessels operating thereon; mass transit, both rail and bus; pipelines, including natural gas, petroleum, and other hazardous material; freight and long haul passenger rail; and delivery services.

**InfraGard’s Intrinsic Value Proposition**

- InfraGard Chapters are local and can adapt to the needs of their community/region
- InfraGard Chapters have representation from all 19 DHS Critical Infrastructure Sectors
- The trust inherent in individuals with FBI clearance is unmatched in any other public-private partnership in the U.S.
- The FBI-InfraGard Team is a unique and highly-successful solution to involving the private sector in the protection of our nation’s critical infrastructure
